

Sam Ludwig

Infrastructure | Cloud | Modern Workplace

Melbourne, Victoria, 0405 993 245, sam.ludwig@gmail.com, linkedin.com/in/sam-ludwig, samludwig.au, github.com/Ludwixix

Professional Summary

Infrastructure and Microsoft 365 engineer with approximately seven years of experience across enterprise cloud operations, hybrid identity, platform reliability, endpoint management, automation, and production support. Experienced in Azure adoption, Entra ID, Microsoft 365, SharePoint, Azure DevOps, PowerShell, Python, and ServiceNow. Known for reducing operational toil, improving deployment consistency, and resolving complex L3 incidents with clear documentation and root-cause analysis.

Skills

- Cloud and platform engineering: Azure VMs, Azure Functions, Azure Automation, Azure DevOps, Azure Portal, cloud adoption, legacy remediation, CI/CD
- Microsoft platforms: Microsoft 365, SharePoint Online and Server, Exchange Online and Hybrid, Teams, OneDrive, Power Platform
- Identity and security: Entra ID, Azure AD Connect, Active Directory, ADFS, Password Hash Sync, Pass-through Authentication, Seamless SSO, Conditional Access, MFA, SSPR, Essential 8, ISO 27001 requirements
- Automation and operations: PowerShell 5.1/7, Python, Microsoft Graph API, PnP PowerShell, ServiceNow, Git, Splunk, KQL, ITIL 4, incident/change/problem management, RCA, runbooks
- Infrastructure: Windows Server, Group Policy, DNS, DHCP, VMware vSphere, Hyper-V, Intune, Windows Autopilot, Windows 10/11, structured cabling fundamentals

Professional Experience

Senior Engineer, Capgemini - consultant to Department of Education Victoria

December 2021-Present, Melbourne, Victoria

- Operate and improve Microsoft 365 and SharePoint services supporting more than 660,000 users across more than 1,000 sites, maintaining 99.9 percent service availability.
- Resolve L3 incidents involving hybrid identity, authentication, federation, mail flow, SharePoint, Microsoft 365, and Google Workspace.
- Support Azure cloud adoption and legacy remediation aligned with enterprise security baselines and ACSC Essential Eight priorities.
- Built PowerShell automation to audit and enforce MFA compliance across sensitive SharePoint environments, improving evidence quality and enabling proactive remediation.
- Integrated ServiceNow workflows with live Microsoft 365 presence data to improve assignment and reduce avoidable SLA risk.
- Delivered Azure DevOps CI/CD pipelines for SharePoint solutions, reducing deployment cycles by 25 percent.
- Produce root-cause analysis, as-built documentation, runbooks, and knowledge-base material for repeatable platform operations.

Information Technology Support Specialist, Australia Post via Capgemini

February 2026-Present, Melbourne, Victoria

- Deliver endpoint and infrastructure support across imaging, Windows Autopilot, unified endpoint management, inventory, and compliant device disposal.
- Escalate complex faults and contribute to ServiceNow workflow and process improvements.

Windows 11 Deployment Engineer, St John of God Health Care via Capgemini

October 2025-January 2026, Melbourne, Victoria

- Migrated more than 100 clinical endpoints using Intune and Windows Autopilot, validating application compatibility and supporting users through hypercare.

Application Support Engineer, Knosys

December 2020-December 2021, Melbourne, Victoria

- Provided L3 support for an enterprise SaaS platform and collaborated with engineering teams on complex production defects.
- Built PowerShell and Python automation for migration processing and patching, reducing processing time by 87 percent.

SharePoint Developer and Consultant, Engage Squared

March 2018-December 2020, Melbourne, Victoria

- Delivered SharePoint Online, SPFx, Microsoft 365, Azure DevOps, and automation solutions for enterprise and government clients.
- Developed reusable deployment pipelines, technical documentation, and client-facing platform guidance.

Education and Certifications

- Diploma of Information Technology
- Microsoft Certified: Azure Administrator Associate (AZ-104)
- Microsoft Certified: Azure Fundamentals (AZ-900)
- ITIL 4 Foundation

Relevant application: Senior Platform Engineer, Commonwealth Bank
