Re: Part-Time Customer Service and Sales Assistant - Beacon Lighting

Dear Hiring Manager

I'm applying for the Part-Time Customer Service and Sales Assistant position with Beacon Lighting. The St Kilda location and small part-time commitment make this a practical local option. My experience includes customer-facing technical support, clear explanations, stock and asset control, and dependable service operations.

My recent experience combines enterprise support with earlier field-based technical work. At Australia Post via Capgemini, I delivered hardware diagnostics, Windows imaging, endpoint provisioning, Autopilot/UEM enrolment, inventory control, loan-device management and compliant disposal. At St John of God Health Care, I led Windows 11 migration across more than 100 clinical endpoints using Autopilot and Intune, with application validation and hypercare in a live hospital environment.

Earlier work at NBN Co and PolaAir developed practical site assessment, physical infrastructure installation, equipment handling, systematic fault-finding and customer communication across Melbourne locations. My Capgemini experience also adds strong documentation, process discipline, stakeholder communication, PowerShell automation and enterprise service operations.

What appeals to me about the role is the combination of customer support. I'd bring dependable task ownership, clear communication and a willingness to learn the way your team works.

I'm happy to confirm any licence, qualification, check, vehicle, roster or prior-industry requirements before progressing.

Thank you for considering my application. I would welcome a conversation about how my background could contribute to your team.

Yours sincerely

Sam Ludwig
