Subject

Application - Shift Technician- Air Conditioning & Refrigeration, Data Center - Sam Ludwig

Email body

Hello Hiring Manager

I'm writing about the Shift Technician- Air Conditioning & Refrigeration, Data Center position with CBRE. My earlier HVAC service work and later data-centre infrastructure exposure make this a credible practical pathway. I would confirm the rotating 12-hour roster, site location and trade requirements before applying.

My background includes enterprise technical support, endpoint lifecycle management, field infrastructure, systematic fault-finding, customer communication and process-focused documentation.

The areas most relevant to the role are hvac, data-centre operations, customer support.

I'd welcome a brief conversation about the role and any position-specific requirements.

Regards

Sam Ludwig
