Hello Hiring Manager

I'm writing about the Park Asset Specialist position with City of Boroondara. My infrastructure asset, inventory and site-assessment background is relevant to a park-asset role, although I do not claim prior council parks experience. I would bring disciplined record-keeping, fault identification and stakeholder communication.

My background includes enterprise technical support, endpoint lifecycle management, field infrastructure, systematic fault-finding, customer communication and process-focused documentation.

The areas most relevant to the role are council, asset management, parks.

I'd welcome a brief conversation about the role and any position-specific requirements.

Regards

Sam Ludwig
