Hello Hiring Manager

I'm writing about the Retail Planogram Merchandiser - Casual position with Crossmark Australia. The role's local, field-based and inventory-oriented structure connects with my asset-control, site-assessment, documentation and customer-facing support experience. I'd need to confirm the advertised car and licence requirement.

My background includes enterprise technical support, endpoint lifecycle management, field infrastructure, systematic fault-finding, customer communication and process-focused documentation.

The areas most relevant to the role are customer support.

I'd welcome a brief conversation about the role and any position-specific requirements.

Regards

Sam Ludwig
