Hello Hiring Manager

I'm writing about the Tech Support roles position with First Focus IT. The First Focus IT technical support role matches my Microsoft-focused service operations background across Azure, Active Directory, Outlook, endpoint support, troubleshooting, and customer communication.

My background includes enterprise technical support, endpoint lifecycle management, field infrastructure, systematic fault-finding, customer communication and process-focused documentation.

The areas most relevant to the role are Azure, Intune, Active Directory.

I'd welcome a brief conversation about the role and any position-specific requirements.

Sam Ludwig
