Subject

Application - Service Desk Engineer - Sam Ludwig

Email body

Hello Hiring Manager

I'm writing about the Service Desk Engineer position with GPK Group. This role matches my recent L1/L2/L3 support, hardware diagnostics, Windows imaging, Autopilot/UEM, ServiceNow automation and endpoint lifecycle experience. I understand that a short video response is already pending in the existing process.

My background includes enterprise technical support, endpoint lifecycle management, field infrastructure, systematic fault-finding, customer communication and process-focused documentation.

The areas most relevant to the role are Intune, windows, Autopilot.

I'd welcome a brief conversation about the role and any position-specific requirements.

Regards

Sam Ludwig
