Hello Hiring Manager

I'm writing about the Group Infrastructure Engineer position with Icon. Hands-on infrastructure engineering role focused on modernising a growing technology environment and contributing to large-scale transformation projects.

My background includes enterprise technical support, endpoint lifecycle management, field infrastructure, systematic fault-finding, customer communication and process-focused documentation.

The areas most relevant to the role are core infrastructure, tailored existing materials, verify listing.

I'd welcome a brief conversation about the role and any position-specific requirements.

Regards

Sam Ludwig
