Email body

Hello Hiring Manager

I'm writing about the Ranger - Parks and Gardens position with Parks Victoria. My field technician and HVAC experience supports practical outdoor equipment work, site assessment and fault-finding. I haven't worked in parks, conservation or a ranger role, so I'd want to confirm the position requirements.

My background includes enterprise technical support, endpoint lifecycle management, field infrastructure, systematic fault-finding, customer communication and process-focused documentation.

The areas most relevant to the role are hvac.

I'd welcome a brief conversation about the role and any position-specific requirements.

Regards

Sam Ludwig
