Email body

Hello Hiring Manager

I'm writing about the Apprentice Vehicle Technician - Richmond, January 2027 intake position with Tesla. I'm making a deliberate move into this kind of practical work. My transferable base is systematic mechanical and electrical fault-finding from HVAC, plus field infrastructure discipline; I don't hold an automotive qualification yet.

My background includes enterprise technical support, endpoint lifecycle management, field infrastructure, systematic fault-finding, customer communication and process-focused documentation.

The areas most relevant to the role are hvac.

I'd welcome a brief conversation about the role and any position-specific requirements.

Regards

Sam Ludwig
