Re: Retail Store Team Member - Lindt & Sprüngli (Australia) Pty Ltd

Dear Hiring Manager

I'm applying for the Retail Store Team Member position with Lindt & Sprüngli (Australia) Pty Ltd. This role is a practical local option. While my background is technical operations rather than retail, I bring customer-facing service, accurate process execution, stock and asset awareness, teamwork, and a willingness to learn product and point-of-sale processes.

My recent experience combines hands-on service delivery with enterprise engineering. At Australia Post via Capgemini, I delivered endpoint and infrastructure support, managed hardware and software lifecycle work, resolved complex faults, and built ServiceNow automation that removed repetitive manual effort. At St John of God Health Care, I delivered a Windows 11 migration across more than 100 clinical endpoints using Autopilot, Intune, application validation, and post-deployment support.

Earlier work with Capgemini for the Department of Education Victoria involved Azure, Microsoft 365, Entra ID, hybrid identity, security-aware change, Tier-3 escalation, PowerShell automation, and documented operational improvement at significant scale. My field and application-support background adds practical fault-finding, customer communication, disciplined triage, and durable root-cause analysis.

The areas most relevant to the role are retail store, team member, customer service. I'd bring dependable task ownership, clear communication, and a willingness to learn the way your team works.

I'm happy to confirm any licence, qualification, check, roster, or role-specific requirement before progressing.

Thank you for considering my application. I would welcome a conversation about how my background could contribute to your team.

Yours sincerely

Sam Ludwig
