Email body

Hello Hiring Manager

I am writing about the Level 2 Desktop Support position with Metro Trains Melbourne. This role fits my hands-on desktop support and escalation background, including Windows endpoint troubleshooting, hardware lifecycle work, structured incident ownership, and calm customer communication in service-critical environments.

My background includes level 2 support, desktop support, windows, hardware diagnostics, enterprise technical support, systematic fault-finding, process-focused documentation, and customer communication.

I would welcome a brief conversation about the role and any position-specific requirements.

Regards

Sam Ludwig
