Hello Hiring Manager

I am writing about the Senior Infrastructure Engineer position with Alfred Health. Fresh individual Indeed listing posted August 13 for a senior infrastructure role in a major public health environment. Strong contextual overlap with prior healthcare endpoint migration and enterprise Microsoft infrastructure work.

My background includes senior infrastructure, healthcare technology, enterprise operations, technical support, Microsoft 365, Azure, endpoint support, incident ownership, process-focused documentation, and customer communication.

I would welcome a brief conversation about the role and any position-specific requirements.

Regards

Sam Ludwig
