Subject

Application - Senior Site Reliability Engineer (Digital Infrastructure) - Sam Ludwig

Email body

Hello Hiring Manager

I am writing about the Senior Site Reliability Engineer (Digital Infrastructure) position with Certus Digital. Fresh individual Indeed listing posted August 13 for a Melbourne SRE role in digital infrastructure. Credible stretch match through cloud operations, incident management, automation, and enterprise infrastructure support.

My background includes site reliability, digital infrastructure, cloud operations, incident management, automation, Microsoft 365, Azure, endpoint support, incident ownership, process-focused documentation, and customer communication.

I would welcome a brief conversation about the role and any position-specific requirements.

Regards

Sam Ludwig
