Subject

Application - Senior Systems/Commissioning Engineer - Sam Ludwig

Email body

Hello Hiring Manager

I am writing about the Senior Systems/Commissioning Engineer position with Kapsch TrafficCom Australia. Fresh individual Indeed listing posted August 14. The Melbourne systems and commissioning focus is adjacent to enterprise infrastructure delivery and warrants review, but the transport-systems domain and engineering requirements need confirmation.

My background includes systems engineering, commissioning, intelligent transport systems, technical delivery, Microsoft 365, Azure, endpoint support, incident ownership, process-focused documentation, and customer communication.

I would welcome a brief conversation about the role and any position-specific requirements.

Regards

Sam Ludwig
