Re: Systems Administrator - Victorian Institute of Teaching

Dear Hiring Manager

I am applying for the Systems Administrator position with Victorian Institute of Teaching. Current direct Victorian Government careers listing with applications closing August 17, 2026. Strong public-sector and systems-administration alignment.

At Australia Post via Capgemini, I delivered endpoint and infrastructure support, managed hardware and software lifecycle work, resolved complex faults, and built ServiceNow automation that reduced repetitive manual effort. At St John of God Health Care, I delivered a Windows 11 migration across more than 100 clinical endpoints using Autopilot, Intune, application validation, and post-deployment support.

Earlier work with Capgemini for the Department of Education Victoria involved Azure, Microsoft 365, Entra ID, hybrid identity, security-aware change, Tier 3 escalation, PowerShell automation, and documented operational improvement at significant scale.

The areas most relevant to this role are systems administration, government, enterprise support, windows. I would bring dependable task ownership, clear communication, practical troubleshooting, and a willingness to learn the way your team works.

I am happy to confirm any licence, qualification, clearance, roster, travel, or role-specific requirement before progressing.

Thank you for considering my application. I would welcome a conversation about how my background could contribute to your team.

Yours sincerely

Sam Ludwig
