Re: Cyber Security Support Analyst - Angle Auto Finance

Dear Hiring Manager

I am applying for the Cyber Security Support Analyst position with Angle Auto Finance. Fresh individual Melbourne identity and security support listing. Good adjacent fit through Entra ID, hybrid identity, endpoint security, access governance, incident resolution, and documented enterprise operations.

My recent work at Australia Post via Capgemini covered endpoint support, Windows imaging, provisioning, Autopilot/UEM enrolment, hardware lifecycle, inventory, user access, and ServiceNow automation. At St John of God Health Care, I led a Windows 11 migration across more than 100 clinical endpoints using Autopilot, Intune, application validation, and post-deployment support.

Earlier work with Capgemini for the Department of Education Victoria involved Microsoft 365, Azure, Entra ID, hybrid identity, security-aware change, Tier 3 escalation, PowerShell automation, RCA, and operational documentation at significant scale.

The areas most relevant to this role are identity and access management, Entra ID, security operations, governance, support. I would bring dependable task ownership, clear communication, practical troubleshooting, and a willingness to learn the way your team works.

I am happy to confirm any licence, qualification, clearance, roster, travel, or role-specific requirement before progressing.

Thank you for considering my application. I would welcome a conversation about how my background could contribute to your team.

Yours sincerely

Sam Ludwig
