13 June 2026

Dear Hiring Manager at Bureau of Meteorology,

I am writing to express my interest in the Satellite & Space Technical Specialist position at Bureau of Meteorology. I am an infrastructure and M365 engineer with 6+ years of experience across enterprise IT environments, bringing a combination of deep technical knowledge and practical problem-solving ability.

My career spans managing the largest SharePoint farm in the Southern Hemisphere (660,000+ users), engineering PowerShell automation that reduced processing time by 87%, leading Windows 11 migrations across 100+ clinical endpoints, and serving as Tier-3 escalation for the Department of Education Victoria.

I hold Microsoft Certified: Azure Administrator Associate (AZ-104), ITIL 4 Foundation, and Certified Scrum Master certifications. I am a quick learner who adapts easily to new technologies and environments.

I am immediately available and would welcome the opportunity to discuss how I can contribute to Bureau of Meteorology's team.

Kind regards,

Sam Ludwig
