

SAM LUDWIG

Infrastructure & M365 Engineer

Melbourne, VIC | 0405 993 245 | sam.ludwig@gmail.com | linkedin.com/in/sam-ludwig | samludwig.au

9 June 2026

Dear Hiring Manager at Datacom,

I am writing to express my strong interest in the Senior M365 Specialist position. Having previously applied to Datacom for the ITSM Process Specialist role, I am eager to also be considered for this senior M365 opportunity.

With 6+ years specializing in Microsoft 365 and infrastructure engineering, I bring deep expertise across the entire M365 stack:

- SharePoint Online: Managing 660,000+ users across 1,000+ sites with 99.9% uptime, the largest SharePoint farm in the Southern Hemisphere. Delivered 5+ enterprise intranets for Victoria Police, Transurban, and Cimic Group using SPFx/React/TypeScript
- Exchange Hybrid: Email infrastructure management, migration, and troubleshooting for 660,000+ users
- Entra ID: Conditional Access, MFA enforcement, hybrid AD/Azure AD sync, identity governance
- Intune/Autopilot: MDM/MAM device management, compliance policies, SOE design, and zero-touch deployment
- Power Platform & Automation: Power Automate workflows, PnP PowerShell (reduced migration processing by 87%), Python, Azure DevOps CI/CD
- Security: ACSC Essential 8 alignment, Defender, Purview compliance, Microsoft Certified: Azure Administrator Associate (AZ-104)

At CapGemini, I serve as the Tier-3 escalation point for the Department of Education Victoria. I built a ServiceNow integration with M365 presence data that eliminated manual triage, and produced RCA reports that became the team reference guide. I also delivered L2/L3 support at Australia Post and led Windows 11 migrations at St John of God Health Care.

I am immediately available and would welcome the opportunity to discuss how my M365 expertise can benefit Datacom's clients.

Kind regards,

Sam Ludwig
