

SAM LUDWIG

Infrastructure & M365 Engineer

Melbourne, VIC | 0405 993 245 | sam.ludwig@gmail.com | linkedin.com/in/sam-ludwig | samludwig.au

9 June 2026

Dear Hiring Manager at Interactive,

I am writing to express my strong interest in the Digital Workplace Engineer - Cloud position. With 6+ years of experience in Microsoft 365, Azure cloud services, and endpoint management, I bring the technical depth and stakeholder focus this role demands.

At CapGemini, consulting to the Department of Education Victoria, I:

- Manage the largest SharePoint farm in the Southern Hemisphere (660,000+ users, 1,000+ sites, 99.9% uptime)
- Serve as the ultimate Tier-3 escalation point across M365 and Google Workspace, achieving a 15% reduction in repeat incidents
- Engineer PnP PowerShell automation for MFA compliance across 200+ SharePoint sites
- Spearhead Azure cloud adoption and legacy application remediation aligned with ACSC Essential 8
- Administer Exchange Hybrid, Entra ID (Conditional Access, MFA), Intune (MDM/MAM), Autopilot, Teams, Defender, and Purview

My technical toolkit also includes PowerShell (advanced/PnP), Python, JavaScript/TypeScript, React, SPFx, and Azure DevOps CI/CD. I have architected solutions for Victoria Police, Transurban, and St John of God Health Care, delivering 5+ enterprise SharePoint intranets and leading Windows 11 migrations across 100+ clinical endpoints.

I also built a ServiceNow integration with M365 presence data and an algorithmic workload engine that eliminated manual triage, and authored RCA reports that became the reference guide for future migration cycles.

I am passionate about digital workplace innovation and would welcome the opportunity to bring my expertise to Interactive's growing cloud and managed services environment.

Kind regards,

Sam Ludwig
