9 June 2026

Dear Hiring Manager at VENTORA Group,

I am writing to express my interest in the Microsoft 365 Administrator position. With 6+ years of hands-on M365 administration and infrastructure experience, I am well-positioned to deliver immediate value.

My core expertise includes:

- Exchange Online & Hybrid: Managing email infrastructure for 660,000+ users, including migration planning, troubleshooting mail-flow/calendar/federation issues, and compliance configuration
- Entra ID: Implementing Conditional Access policies, MFA enforcement, hybrid AD/Azure AD sync, and resolving identity conflicts for seamless SSO
- SharePoint: Administering the largest SharePoint farm in the Southern Hemisphere with 99.9% uptime, plus PnP PowerShell automation for MFA compliance
- Intune & Autopilot: MDM/MAM device enrollment, compliance policies, SOE design, and zero-touch deployment across enterprise environments
- Teams & Defender: Configuration, policy management, security posture, and Purview compliance
- Automation: PowerShell (advanced/PnP), Python, Azure DevOps CI/CD, reduced migration processing by 87% and eliminated manual triage

Currently at CapGemini consulting to the Department of Education Victoria, I serve as the Tier-3 escalation point. I also delivered L2/L3 support at Australia Post and led Windows 11 migrations across 100+ clinical endpoints at St John of God Health Care.

I hold AZ-104 (Azure Administrator Associate), AZ-900, ITIL 4 Foundation, and Certified Scrum Master certifications. I am immediately available and eager to bring my M365 expertise to VENTORA Group.

Kind regards,

Sam Ludwig
