

SAM LUDWIG

Infrastructure & M365 Engineer

Melbourne, VIC | 0405 993 245 | sam.ludwig@gmail.com | linkedin.com/in/sam-ludwig | samludwig.au

9 June 2026

Dear Hiring Manager at VISITS,

I am writing to express my interest in the Service Desk / Onsite Engineer position. With 6+ years of hands-on IT support experience spanning Microsoft 365, Azure, and endpoint management, I am ready to hit the ground running.

My background includes:

- M365 Administration: Managing Exchange Hybrid, Entra ID, Intune, Teams, and SharePoint Online for 660,000+ users at the Department of Education Victoria
- Onsite support: Providing face-to-face Tier-3 escalation across multiple government and enterprise clients, including Australia Post (L2/L3 at MyITHub) and St John of God Health Care
- Endpoint management: Windows 11 migrations across 100+ clinical endpoints, Autopilot deployment, Intune policy application, and device lifecycle management
- Automation: PowerShell scripting that reduced migration processing by 87% and keystroke injection automation for ServiceNow ticket workflows
- MSP experience: Working across diverse client environments at CapGemini, device repair, OS reimaging, provisioning, loan device management

I hold ITIL 4 Foundation certification and have extensive experience with ServiceNow and Zendesk. I enjoy working across real client environments and thrive where no two days are the same.

I am available for immediate start and welcome the chance to discuss how I can contribute to your team.

Kind regards,

Sam Ludwig
