RACK DECOMMISSIONING TECHNICIAN | DATA CENTRE OPERATIONS

Professional Summary

Methodical infrastructure technician experienced in physical network work, hardware diagnostics, device provisioning, asset handling, endpoint lifecycle and controlled change. Comfortable following documented procedures, recording work in ITSM systems, coordinating escalations and producing clear evidence of completed work. Supported by enterprise Windows, identity and automation experience, with a strong focus on safe execution and accurate documentation.

Core Skills

Hardware lifecycle; equipment removal and compliant disposal; asset/inventory control; physical cabling; Layer 1 fault-finding; cable routing; hardware diagnostics; OS imaging; Windows 10/11; Autopilot/UEM; Intune; ServiceNow; ticket and change records; incident management; SLA discipline; RCA; runbooks; as-built documentation; PowerShell; Python; VMware; Hyper-V; environmental controls.

Professional Experience

Information Technology Support Specialist | Australia Post (via Capgemini)

Feb 2026–Present | Melbourne

- Manage endpoint lifecycle activities including hardware preparation, OS migrations, imaging, Autopilot/UEM enrolment and compliant equipment disposal with data sanitisation.
- Diagnose and repair devices, manage loan equipment and fulfil accessories within a high-volume service centre.
- Maintain spares and accessories inventory, review monthly stock watermarks and support ServiceNow stock-process improvements.
- Record and escalate complex infrastructure faults, collaborating with L3 teams to achieve resolution.

Windows 11 Deployment Engineer | St John of God Health Care (via Capgemini)

Oct 2025–Jan 2026 | Melbourne

- Managed hardware preparation, Autopilot enrolment, Intune policy application, validation and handover for 100+ clinical endpoints.
- Followed strict SOE and provisioning workflows in a live hospital environment, maintaining continuity for clinical users.

Senior Engineer | CapGemini (consultant to Department of Education Victoria)

Dec 2021–Present | Melbourne

- Executed critical changes and security patching for a 660,000+ user SharePoint environment across 1,000+ sites, achieving 99.9% uptime.
- Produced RCA reports, as-built documentation and knowledge-base content; managed 40+ concurrent tickets with more than 90% resolved within SLA.

Telecommunications Field Technician | National Broadband Network

Oct 2016–Nov 2017 | Melbourne

- Installed and maintained infrastructure equipment; ran physical cabling and performed Layer 1 fault-finding across residential and commercial environments.
