INFORMATION SYSTEMS ANALYST | ENTERPRISE APPLICATIONS & INFRASTRUCTURE

Professional Summary

Information systems and infrastructure professional experienced in enterprise application support, incident and problem analysis, identity/integration troubleshooting, change delivery, automation and stakeholder communication. Trusted in secure government and critical-service environments to investigate complex faults, document root causes, improve operational processes and support systems at scale.

Core Skills

Systems analysis; application support; requirements and stakeholder communication; incident/problem/change management; RCA; ServiceNow; SharePoint Online; Exchange Hybrid; Teams; Entra ID/Azure AD; Active Directory; Google Workspace; PowerShell; Python; SQL; REST APIs; Microsoft Graph; Splunk; KQL; Azure; documentation; ITIL 4; ISO 27001; ACSC Essential 8.

Professional Experience

Senior Engineer | CapGemini (consultant to Department of Education Victoria)

Dec 2021–Present | Melbourne

- Managed SharePoint infrastructure supporting 660,000+ active users across 1,000+ sites, executing changes and security patching with 99.9% uptime.
- Served as Tier-3 escalation point across M365 and Google Workspace; investigated identity conflicts, authentication failures, mail-flow, calendar and federation issues.
- Led RCA that delivered a documented 15% reduction in repeat incidents and produced as-built documentation, reports and knowledge-base content.
- Built PnP PowerShell MFA compliance automation across 200+ sensitive SharePoint sites with automated reporting.
- Managed 40+ concurrent tickets with more than 90% resolved within SLA.

Application Support Engineer | Knosys

Dec 2020–Dec 2021 | Melbourne

- Delivered L3 support for an enterprise intranet platform at 95% issue resolution within SLA.
- Diagnosed database query failures, API integration errors and front-end defects; worked with developers on code-level fixes.
- Automated migration data compilation, reducing processing time from 2 hours to 15 minutes, and improved patch consistency with Python/PowerShell.

SharePoint Developer / Consultant | Engage Squared

Mar 2018–Dec 2020 | Melbourne

- Delivered SharePoint Online solutions for Victoria Police, Transurban and Cimic Group using SPFx, React and TypeScript.
- Led legacy intranet migrations, governance and permission frameworks; implemented Azure DevOps/Git CI/CD reducing deployment cycles by 25%.

Information Technology Support Specialist | Australia Post (via Capgemini)

Feb 2026–Present | Melbourne

- Provide L1/L2 endpoint support, device lifecycle management and ServiceNow process improvement in a high-volume service centre.

Education & Certifications

Microsoft Certified: Azure Administrator Associate (AZ-104) | ITIL 4 Foundation | Certified Scrum Master | Diploma of Information Technology
