DATA CENTRE TECHNICIAN | INFRASTRUCTURE OPERATIONS

Professional Summary

Hands-on infrastructure and systems professional with experience across physical telecommunications, hardware provisioning, endpoint deployment, Windows systems and large-scale enterprise operations. Strong in Layer 1 troubleshooting, cabling, equipment lifecycle, change control, incident response and clear technical documentation. Brings disciplined operational practice from government, healthcare, postal and managed-service environments, with a practical automation mindset.

Core Skills

Data centre operations; hardware provisioning; rack-and-stack fundamentals; Layer 1 cabling and fault-finding; cable routing; Windows 10/11; Windows Server; Active Directory; Group Policy; VMware; Hyper-V; Intune; Windows Autopilot; OS imaging; device lifecycle and compliant disposal; HVAC/thermal and environmental controls; ServiceNow; ITIL 4; incident/change management; RCA; PowerShell; Python; technical documentation.

Professional Experience

Information Technology Support Specialist | Australia Post (via Capgemini)

Feb 2026–Present | Melbourne

- Deliver L1/L2 face-to-endpoint and remote support covering hardware diagnostics and repair, OS reimaging, loan devices, provisioning and accessories fulfilment.
- Manage endpoint lifecycle activities including Windows migration, device imaging, Autopilot/UEM enrolment and compliant equipment disposal.
- Maintain spares and accessories inventory, review monthly stock watermarks and support a ServiceNow stock module implementation.
- Escalate complex infrastructure faults to L3 teams and drive incidents through to resolution.

Windows 11 Deployment Engineer | St John of God Health Care (via Capgemini)

Oct 2025–Jan 2026 | Melbourne

- Led Windows 11 migration across 100+ clinical endpoints in a live hospital environment, following Autopilot and SOE workflows.
- Prepared hardware, enrolled devices, applied Intune policy and validated clinical software before handover.
- Provided post-deployment hypercare while protecting continuity of patient-facing systems.

Senior Engineer | CapGemini (consultant to Department of Education Victoria)

Dec 2021–Present | Melbourne

- Managed a 660,000+ user SharePoint environment across 1,000+ sites, executing critical changes and security patching with 99.9% uptime.
- Served as Tier-3 escalation point, performing RCA and producing as-built documentation, runbooks and knowledge-base material.
- Managed 40+ concurrent tickets with more than 90% resolved within SLA.

Telecommunications Field Technician | National Broadband Network

Oct 2016–Nov 2017 | Melbourne

- Executed Layer 1 telecommunications deployments, physical cabling, cable routing and hands-on fault-finding across residential and commercial environments.
- Installed and maintained IT infrastructure and equipment.

Education & Certifications

Microsoft Certified: Azure Administrator Associate (AZ-104) | Microsoft Certified: Azure Fundamentals (AZ-900) | ITIL 4 Foundation | Diploma of Information Technology
