CUSTOMER FIELD TECHNICIAN | TELECOMMUNICATIONS & IT SUPPORT

Professional Summary

Customer-focused field and infrastructure technician with direct telecommunications deployment experience, hands-on Layer 1 fault-finding and a current background in endpoint support. Skilled at working methodically in residential and commercial environments, explaining technical issues clearly, installing and maintaining equipment, and owning faults through to resolution. Brings additional strength in Windows, device lifecycle, ServiceNow and ITIL service operations.

Core Skills

Customer and end-user support; field service; Layer 1 telecommunications; physical cabling; cable routing; line fault-finding; hardware diagnostics; installation and maintenance; Windows 10/11; device imaging; Autopilot/UEM; inventory; ServiceNow; incident and SLA management; escalation; technical documentation; safe, precise work.

Professional Experience

Telecommunications Field Technician | National Broadband Network

Oct 2016–Nov 2017 | Melbourne

- Executed Layer 1 telecommunications infrastructure deployments through complex residential and commercial environments.
- Ran physical cabling, performed hands-on fault-finding across network lines, and installed and maintained IT infrastructure and equipment.
- Worked with precision and efficiency in customer-facing field settings.

Information Technology Support Specialist | Australia Post (via Capgemini)

Feb 2026–Present | Melbourne

- Deliver L1/L2 face-to-endpoint and remote technical support covering device repair, hardware diagnostics, OS recovery, provisioning and accessories fulfilment.
- Manage endpoint lifecycle from imaging and Windows migration through Autopilot/UEM enrolment and compliant disposal.
- Act as escalation point for complex infrastructure faults and collaborate with L3 teams to drive incidents to resolution.
- Maintain spares and accessories inventory and support ServiceNow stock-process improvements.

Windows 11 Deployment Engineer | St John of God Health Care (via Capgemini)

Oct 2025–Jan 2026 | Melbourne

- Prepared and deployed 100+ Windows 11 clinical endpoints using Autopilot and Intune, then validated software compatibility and provided hypercare.
- Translated technical issues into practical guidance for clinical end users.

Senior Engineer | CapGemini (consultant to Department of Education Victoria)

Dec 2021–Present | Melbourne

- Resolved complex enterprise incidents as a Tier-3 escalation point and managed 40+ concurrent tickets with more than 90% resolved within SLA.

Education & Certifications

Microsoft Certified: Azure Administrator Associate (AZ-104) | ITIL 4 Foundation | Diploma of Information Technology
