IT SERVICE DESK ANALYST | L1/L2 SUPPORT

Professional Summary

IT support and infrastructure professional experienced in high-volume service desk operations, face-to-endpoint and remote support, hardware/software troubleshooting, device provisioning, ITSM workflow improvement and L3 escalation. Strong ITIL 4 practice, documentation and customer communication, with a track record of resolving recurring faults and automating repetitive service processes.

Core Skills

Service desk; L1/L2 support; hardware diagnostics; Windows 10/11; OS imaging/reimaging; Autopilot; Intune/UEM; account/access support; device lifecycle; ServiceNow; Zendesk; incident/request/problem management; SLA management; RCA; knowledge bases; inventory; PowerShell; Python; stakeholder communication; escalation.

Professional Experience

Information Technology Support Specialist | Australia Post (via Capgemini)

Feb 2026–Present | Melbourne

- Deliver L1/L2 face-to-endpoint and remote support for device repair, OS reimaging, loan devices, new employee provisioning and accessories fulfilment.
- In a high-volume service-centre environment, manage endpoint lifecycle from imaging and Autopilot/UEM enrolment through compliant disposal.
- Engineered keystroke-injection automation to automate repetitive ServiceNow ticket creation and modification within locked-down access constraints.
- Supported a self-help kiosk programme for knowledge-base access, password resets, ticket logging and appointment booking.
- Maintain inventory and contribute to ServiceNow stock-process improvements; escalate complex faults to L3 teams.

Senior Engineer | CapGemini (consultant to Department of Education Victoria)

Dec 2021–Present | Melbourne

- Served as ultimate Tier-3 escalation point across M365, SharePoint Online and Google Workspace; led RCA that delivered a documented 15% reduction in repeat incidents.
- Managed 40+ concurrent tickets with more than 90% resolved within SLA and created RCA/as-built knowledge-base material.

Windows 11 Deployment Engineer | St John of God Health Care (via Capgemini)

Oct 2025–Jan 2026 | Melbourne

- Migrated 100+ clinical endpoints using Autopilot and Intune, validated compatibility and provided post-deployment hypercare.

Application Support Engineer | Knosys

Dec 2020–Dec 2021 | Melbourne

- Delivered L3 application support at 95% within SLA and built PowerShell/Python automation that reduced processing time by 87%.

Education & Certifications

ITIL 4 Foundation | Microsoft Certified: Azure Administrator Associate (AZ-104) | Diploma of Information Technology
