SYSTEMS ADMINISTRATOR | WINDOWS, CLOUD & IDENTITY

Professional Summary

Systems administrator and infrastructure engineer experienced in Windows enterprise environments, Active Directory, Group Policy, Entra ID, Exchange Hybrid, Microsoft 365, endpoint management, cloud adoption, patching, incident response and automation. Trusted to operate high-scale environments, own L3 escalations, document changes and root causes, and improve reliability without compromising service continuity.

Core Skills

Windows Server; Active Directory; Group Policy; DNS/DHCP fundamentals; Entra ID/Azure AD; Azure AD Connect; ADFS; Exchange Hybrid; Microsoft 365; SharePoint Online; Teams; Intune; Autopilot; Windows 10/11; VMware; Hyper-V; Azure VMs/Functions/Automation; PowerShell; Python; Azure DevOps; Git; ServiceNow; Splunk; KQL; patching; change/incident/problem management; RCA; runbooks; as-built documentation; ITIL 4; Essential 8; ISO 27001.

Professional Experience

Senior Engineer | CapGemini (consultant to Department of Education Victoria)

Dec 2021–Present | Melbourne

- Manage the largest SharePoint farm in the Southern Hemisphere, supporting 660,000+ active users across 1,000+ sites; execute critical changes and security patching with 99.9% uptime.
- Serve as Tier-3 escalation point across M365/SharePoint Online and Google Workspace; resolve identity, authentication, mail-flow, calendar and federation issues.
- Oversee synchronisation across on-premises Active Directory, Entra ID and Google Workspace to maintain seamless SSO.
- Support Azure cloud adoption and legacy remediation aligned to ACSC Essential 8 and enterprise security baselines.
- Produce RCA, as-built documentation and knowledge-base content; manage 40+ concurrent tickets with more than 90% resolved within SLA.

Information Technology Support Specialist | Australia Post (via Capgemini)

Feb 2026–Present | Melbourne

- Deliver L1/L2 endpoint support, OS imaging, Autopilot/UEM enrolment, inventory management and compliant disposal.
- Escalate complex infrastructure faults and contribute to ServiceNow workflow/process improvements.

Windows 11 Deployment Engineer | St John of God Health Care (via Capgemini)

Oct 2025–Jan 2026 | Melbourne

- Migrated 100+ clinical endpoints using Autopilot and Intune, validating applications and supporting live users through hypercare.

Application Support Engineer | Knosys

Dec 2020–Dec 2021 | Melbourne

- Delivered L3 support and built PowerShell/Python automation for cloud migration and patching, reducing processing time by 87%.

Education & Certifications

Microsoft Certified: Azure Administrator Associate (AZ-104) | Microsoft Certified: Azure Fundamentals (AZ-900) | ITIL 4 Foundation | Diploma of Information Technology
