Subject

Application - End User Computing Support Engineer - Sam Ludwig

Email body

Hello Hiring Manager

I'm writing about the End User Computing Support Engineer position with Australian Government Bureau of Meteorology. This role is a strong match for my endpoint engineering and enterprise support background. I bring hands-on Intune, Autopilot, Windows 10/11, ServiceNow, hardware diagnostics, endpoint lifecycle management and L1/L2/L3 escalation experience.

My background includes enterprise technical support, endpoint lifecycle management, field infrastructure, systematic fault-finding, customer communication and process-focused documentation.

The areas most relevant to the role are Intune, windows, Autopilot.

I'd welcome a brief conversation about the role and any position-specific requirements.

Regards

Sam Ludwig
