

Sam Ludwig

Infrastructure | Cloud | Modern Workplace

Melbourne, VIC, 0405 993 245, sam.ludwig@gmail.com, samludwig.au, github.com/Ludwixix

Professional Summary

Hands-on technician and infrastructure professional combining recent enterprise endpoint support with earlier field telecommunications and HVAC service experience. Interested in structured training, practical troubleshooting and roles where technical capability develops through supervised work.

Profile

My earlier HVAC service work and later data-centre infrastructure exposure make this a credible practical pathway. I would confirm the rotating 12-hour roster, site location and trade requirements before applying.

Skills

HVAC, Data-centre operations, Customer support, Hardware diagnostics, Windows 10/11, Intune, Autopilot, ServiceNow, Network and Layer 1 fault-finding, Fibre and copper cabling, Data-centre infrastructure fundamentals, HVAC and environmental controls, PowerShell, and Technical documentation

Professional Experience

L2/L3 Technical Support Engineer - Australia Post via Capgemini

February 2026-June 2026, Melbourne, Victoria

- Diagnosed and repaired Windows endpoint hardware, performed imaging and recovery, provisioned devices, managed loan equipment, and supported users through a high-volume service centre.
- Handled Autopilot/UEM enrolment, Windows 10/11 migrations, SOE builds, inventory, accessories, and compliant disposal across the endpoint lifecycle.
- Built ServiceNow automation that removed hundreds of hours of repetitive data entry each month.

Endpoint Migration Engineer - St John of God Health Care

October 2025-January 2026, Melbourne, Victoria

- Migrated more than 100 clinical endpoints to Windows 11 using Autopilot and Intune while supporting live hospital operations.
- Prepared hardware, applied policies, checked compliance, validated clinical applications, handed devices to users, and provided hypercare.
- Explained technical issues clearly to clinical staff and worked with engineering teams to resolve compatibility problems.

Senior Managed Services Engineer - Capgemini

December 2021-2023, Melbourne, Victoria

- Supported enterprise infrastructure, endpoint, identity, Microsoft 365, Azure, ServiceNow, documentation, and escalation operations.
- Automated repetitive service work with PowerShell and investigated faults through structured root-cause analysis.

HVAC Service Technician - PolaAir

2017, Melbourne, Victoria

- Installed, maintained, and repaired commercial HVAC systems across Melbourne sites.
- Used systematic mechanical and electrical fault-finding under time pressure and managed service schedules across multiple customers.
- Built practical experience with environmental controls, equipment handling, site work, and customer-facing service.

Telecommunications Technician - NBN Co

October 2016-November 2017, Melbourne, Victoria

- Installed and maintained fibre and copper Layer 1 infrastructure across residential, commercial, and multi-dwelling sites.
- Performed physical fault-finding, connectivity diagnostics, NTD and router installation, CPE work, and site assessments.
- Worked to structured cabling standards while managing customer communication and multiple Melbourne locations.

Selected Projects

- ServiceNow automation - workflow automation for repetitive ticket and endpoint-service tasks.

Certifications and Education

AZ-104 Azure Administrator Associate, AZ-900 Azure Fundamentals, ITIL 4 Foundation, Certified Scrum Master, Diploma of Information Technology - Coder Academy
