Subject

Application - Apprentice Technician - Sam Ludwig

Email body

Hello Hiring Manager

I'm writing about the Apprentice Technician position with Croydon Toyota. This is a deliberate practical career-change application. My HVAC and telecommunications background provides hands-on fault-finding and site experience, while the apprenticeship provides the formal automotive pathway.

My background includes enterprise technical support, endpoint lifecycle management, field infrastructure, systematic fault-finding, customer communication and process-focused documentation.

The areas most relevant to the role are hvac.

I'd welcome a brief conversation about the role and any position-specific requirements.

Regards

Sam Ludwig
