Professional Summary

L2/L3 technical support and infrastructure engineer with strong Microsoft 365, Azure, Entra ID, Intune, Autopilot, Windows, ServiceNow and ITIL experience. Delivers calm, methodical troubleshooting for complex client environments and improves service quality through documentation, automation, problem management and clear escalation. Background spans government, healthcare, logistics, managed services and field telecommunications.

Skills

L2/L3 support, Microsoft 365, Azure, Entra ID, Active Directory, Intune, Windows Autopilot, Windows 10/11, SharePoint, Exchange, Teams, PowerShell, ServiceNow, ITIL 4, incident/problem/change management, SLA management, hardware diagnostics, device lifecycle, RCA, knowledge management, and client communication

Experience

L2/L3 Technical Support Engineer - Australia Post via Capgemini

February 2026-June 2026, Melbourne

- Delivered face-to-endpoint and remote L1/L2 support for hardware, imaging, Windows, provisioning, access, loan devices and accessories.
- Managed device lifecycle through Autopilot/UEM enrolment, inventory control, deployment readiness and compliant disposal.
- Built ServiceNow automation for repetitive ticket creation and modification within locked-down enterprise controls.
- Escalated complex infrastructure faults to L3 engineering teams and drove incidents to resolution.

Senior Managed Services Engineer - Capgemini, Department of Education Victoria

December 2021-2023, Melbourne

- Served as Tier-3 escalation point across M365, SharePoint, Exchange, Teams, OneDrive, Entra ID and hybrid identity.
- Managed a 660,000+ user SharePoint environment across 1,000+ site collections with 99.9% uptime.
- Managed 40+ concurrent tickets with more than 90% resolved within SLA and produced RCA reports and knowledge articles.

Endpoint Migration Engineer - St John of God Health Care

October 2025-January 2026, Melbourne

- Migrated 100+ clinical endpoints to Windows 11 using Autopilot, Intune, SOE controls, application validation and hypercare.

Application Support Engineer - Knosys, December 2020-December 2021

- Delivered L3 application support and PowerShell/Python automation for migration and patching.

Telecommunications Field Technician - NBN Co, October 2016-November 2017

- Installed and fault-found Layer 1 fibre and copper infrastructure.
