Melbourne, VIC, 0405 993 245, sam.ludwig@gmail.com, samludwig.au, github.com/Ludwixix

Professional Summary

Melbourne-based professional seeking a practical local role in St Kilda and nearby suburbs. Brings dependable service-desk operations, customer communication, inventory control, field work, technical problem-solving, documentation and the ability to learn new procedures quickly. Open to a local-work transition and ready to learn the role's procedures.

Profile

I'm making a deliberate move into local practical work. I haven't worked in a commercial kitchen, but I'm used to reliable procedures, service operations, learning new systems and taking responsibility for the work in front of me.

Skills

Healthcare technology, Customer support, Customer service, Clear communication, Reliable task ownership, Inventory and asset control, Field work, Technical troubleshooting, Process compliance, Documentation, Team collaboration, Fast learning, and Microsoft 365 and digital systems

Professional Experience

L2/L3 Technical Support Engineer - Australia Post via Capgemini

February 2026-June 2026, Melbourne, Victoria

- Supported users with hardware, Windows, provisioning, repairs, access, inventory, and service requests in a busy customer-facing environment.
- Managed loan devices, accessories, endpoint records, and compliant disposal while keeping work moving against service targets.

Endpoint Migration Engineer - St John of God Health Care

October 2025-January 2026, Melbourne, Victoria

- Prepared, deployed, and supported more than 100 Windows 11 endpoints in a live hospital environment.
- Explained technical issues to staff, coordinated fixes, validated applications, and supported users after handover.

Senior Managed Services Engineer - Capgemini

December 2021-2023, Melbourne, Victoria

- Handled service requests, documentation, stakeholder communication, technical troubleshooting, and process improvement across enterprise systems.
- Built automation and knowledge resources that reduced repetitive work and helped teams resolve issues consistently.

HVAC Service Technician - PolaAir

2017, Melbourne, Victoria

- Completed scheduled maintenance, repair, equipment handling, and systematic fault-finding across commercial sites.
- Managed multiple service jobs and communicated directly with customers about the work required.

Telecommunications Technician - NBN Co

October 2016-November 2017, Melbourne, Victoria

- Worked across Melbourne sites installing equipment and physical network infrastructure, assessing work areas, and resolving faults.
- Managed customer communication, equipment, structured procedures, and practical work in different environments.
