Subject

Application - Instrument Technician - Sam Ludwig

Email body

Hello Hiring Manager

I'm writing about the Instrument Technician position with Royal Children's Hospital. My hospital endpoint migration experience gives me direct familiarity with clinical environments, strict continuity requirements and disciplined technical troubleshooting. I would need to confirm the instrument-specific qualification requirements.

My background includes enterprise technical support, endpoint lifecycle management, field infrastructure, systematic fault-finding, customer communication and process-focused documentation.

The areas most relevant to the role are Intune, healthcare technology.

I'd welcome a brief conversation about the role and any position-specific requirements.

Regards

Sam Ludwig
