Subject

Application - Infrastructure Engineer - Telecommunications and IT - Sam Ludwig

Email body

Hello Hiring Manager

I'm writing about the Infrastructure Engineer - Telecommunications and IT position with Socia. Contract infrastructure role covering telecommunications, network, compute, storage and virtualisation. NBN field experience and enterprise infrastructure support provide a credible base.

My background includes enterprise technical support, endpoint lifecycle management, field infrastructure, systematic fault-finding, customer communication and process-focused documentation.

The areas most relevant to the role are layer 1 networking.

I'd welcome a brief conversation about the role and any position-specific requirements.

Regards

Sam Ludwig
