Infrastructure | Cloud | Modern Workplace

Company: Young Engineers Melbourne South

Location: South Melbourne and southern suburbs

Application link: <https://au.indeed.com/viewjob?jk=5caf0c4d8c381612>

Subject

Application - LEGO Robotics and Science Tutor / Instructor - Sam Ludwig

Email body

Hello Hiring Manager

I'm writing about the LEGO Robotics and Science Tutor / Instructor position with Young Engineers Melbourne South. This is the strongest local non-infrastructure match because it combines technical communication, client workshops, automation projects and explaining complex concepts to non-technical audiences.

My background includes enterprise technical support, endpoint lifecycle management, field infrastructure, systematic fault-finding, customer communication and process-focused documentation.

The areas most relevant to the role are PowerShell.

I'd welcome a brief conversation about the role and any position-specific requirements.

Regards

Sam Ludwig
