Infrastructure | Cloud | Modern Workplace

Melbourne, VIC, 0405 993 245, sam.ludwig@gmail.com, samludwig.au, github.com/Ludwixix

Professional Summary

Senior infrastructure and Microsoft 365 engineer with Azure, hybrid identity, enterprise operations, PowerShell automation, and Tier-3 incident experience. Delivers durable cloud and infrastructure improvements in complex, service-critical environments.

Profile

This role closely matches my background in Azure adoption, infrastructure operations, hybrid identity, security-aware change, automation, and operational ownership across government, healthcare, and enterprise environments.

Skills

Azure, Microsoft 365, Entra ID, hybrid identity, Windows Server, Active Directory, PowerShell, Azure DevOps, incident and problem management, RCA, security baselines, ServiceNow, and technical documentation

Professional Experience

Senior Managed Services Engineer - Capgemini, consultant to Department of Education Victoria

December 2021-2023, Melbourne, Victoria

- Managed Azure, SharePoint Online, Exchange Online, Teams, Entra ID, hybrid identity, and Google Workspace in a government environment supporting 660,000+ users.
- Acted as a Tier-3 escalation point, led root-cause analysis, and introduced preventive fixes that reduced repeat incidents by 15 percent.
- Supported Azure adoption, legacy remediation, Essential 8-aligned security baselines, identity synchronisation, and operational runbooks.

Application Support Engineer - Knosys

December 2020-December 2021, Melbourne, Victoria

- Provided L3 support for enterprise SaaS, resolving SQL, API, authentication, browser, and Windows Server issues within SLA.
- Built PowerShell automation that reduced migration processing time by 87 percent and Python and PowerShell patching tools that improved consistency.

L2/L3 Technical Support Engineer - Australia Post via Capgemini

February 2026-June 2026, Melbourne, Victoria

- Delivered endpoint, infrastructure, and service-operations support, and created ServiceNow automation that removed hundreds of hours of repetitive work each month.

Selected Projects

- ServiceNow workload tool - browser extension integrating Microsoft 365 presence data with ServiceNow queues to improve ticket allocation.
- M365 diagnostic GUI - Python tool that helps L1 staff run repeatable PowerShell diagnostics against Exchange and Teams.

■ Certifications and Education

AZ-104 Azure Administrator Associate, AZ-900 Azure Fundamentals, ITIL 4 Foundation, Certified Scrum Master, Diploma of Information Technology - Coder Academy
