Re: Service Desk Analyst - Level 2 - Wallbridge Gilbert Aztec

Dear Hiring Manager

I am applying for the Service Desk Analyst - Level 2 position with Wallbridge Gilbert Aztec. This Level 2 Melbourne service-desk role matches my recent endpoint support work and my broader Tier-3 Microsoft environment experience. Remote work availability is attractive, subject to confirming the roster and support model.

At Australia Post via Capgemini, I delivered hardware diagnostics, Windows imaging, endpoint provisioning, Autopilot/UEM enrolment, inventory control, loan-device management, compliant disposal, and ServiceNow automation. At St John of God Health Care, I led Windows 11 migration across more than 100 clinical endpoints using Autopilot and Intune, including application validation and hypercare.

Earlier work at NBN Co developed practical site assessment, physical infrastructure installation, equipment handling, systematic fault-finding, and customer communication. My Capgemini experience adds Tier-3 Microsoft 365, Entra ID, Azure, SharePoint, Exchange, PowerShell automation, incident management, RCA, and durable documentation.

The role areas most relevant to my background are ServiceNow, itil, customer support, project delivery. I would bring dependable ownership, clear communication, and a willingness to learn the way your team works.

I am happy to confirm any licence, qualification, clearance, vehicle, insurance, roster, subcontractor, or prior-industry requirements before progressing.

Thank you for considering my application. I would welcome a conversation about how my background could contribute to your team.

Yours sincerely

Sam Ludwig
