Subject

Application - End User Computing Support Engineer - Sam Ludwig

Email body

Hello Hiring Manager

I am writing about the End User Computing Support Engineer position with Australian Government Bureau of Meteorology. Fresh individual Indeed listing posted August 13 for APS Level 5 ongoing EUC support, with Melbourne and nationwide office coverage and remote work available. Strong match for Windows endpoint, Intune, Autopilot, service desk, and government operating discipline.

My background includes EUC support, level 1 and level 2 ict support, windows, endpoint management, government operations, Microsoft 365, Azure, endpoint support, incident ownership, process-focused documentation, and customer communication.

I would welcome a brief conversation about the role and any position-specific requirements.

Regards

Sam Ludwig
