Hello Hiring Manager

I am writing about the Azure Infrastructure Engineer position with Guild Group. Fresh individual Indeed listing posted August 13 for a permanent Melbourne CBD Azure Infrastructure Engineer role. Direct alignment with Azure, identity, Microsoft cloud administration, automation, and infrastructure operations.

My background includes Azure, infrastructure engineering, Microsoft 365, Entra ID, cloud operations, Microsoft 365, Azure, endpoint support, incident ownership, process-focused documentation, and customer communication.

I would welcome a brief conversation about the role and any position-specific requirements.

Regards

Sam Ludwig
