Infrastructure | Cloud | Modern Workplace

Melbourne, VIC, 0405 993 245, sam.ludwig@gmail.com, linkedin.com/in/sam-ludwig, samludwig.au, github.com/Ludwixix

Professional Summary

Hands-on technician and systems engineer experienced in installation, endpoint and infrastructure deployment, hardware preparation, physical cabling, fault diagnosis and post-install validation. Comfortable translating requirements into repeatable procedures, documenting configurations, troubleshooting across hardware and software layers, and communicating clearly with customers and delivery teams. Brings disciplined service management and automation skills to integration work.

Skills

Installation and integration; hardware preparation; device deployment; physical cabling; Layer 1 fault-finding; Windows 10/11; Autopilot; Intune; SOE standards; endpoint lifecycle; application compatibility validation; ServiceNow; incident/change management; RCA; as-built documentation; PowerShell; Python; Azure; stakeholder liaison; technical workshops.

Professional Experience

Windows 11 Deployment Engineer, St John of God Health Care (via Capgemini)

Oct 2025-Jan 2026, Melbourne

- Led deployment of Windows 11 across 100+ clinical endpoints, completing hardware preparation, Autopilot enrolment, Intune policy application and post-deployment validation.
- Tested compatibility with EMR, diagnostic imaging and clinical administration systems before handover.
- Liaised with clinical end users and engineering teams, then provided hypercare and resolved compatibility issues in a live hospital environment.

Information Technology Support Specialist, Australia Post (via Capgemini)

Feb 2026-Present, Melbourne

- Deliver hardware diagnostics/repair, OS reimaging, new-user provisioning, loan-device management and accessories fulfilment.
- Manage endpoint lifecycle from imaging and Windows migration through Autopilot/UEM enrolment and compliant disposal.
- Escalate complex infrastructure faults and collaborate with L3 teams to drive resolution; maintain spares and stock records.

Senior Engineer, CapGemini (consultant to Department of Education Victoria)

Dec 2021-Present, Melbourne

- Delivered enterprise M365 infrastructure changes and security patching for 660,000+ users across 1,000+ sites, maintaining 99.9% uptime.
- Produced RCA and as-built documentation and served as Tier-3 escalation point across M365 and identity services.

Telecommunications Field Technician, National Broadband Network

Oct 2016-Nov 2017, Melbourne

- Installed and maintained IT infrastructure, ran physical cabling and performed Layer 1 fault-finding across complex environments.

Education & Certifications

Microsoft Certified: Azure Administrator Associate (AZ-104), Microsoft Certified: Azure Fundamentals (AZ-900), ITIL 4 Foundation, Diploma of Information Technology
