Datacom - Senior Endpoint Engineering Specialist

Subject: Senior Endpoint Engineering Specialist - Melbourne

Hi Datacom recruitment team

I'm applying for the Senior Endpoint Engineering Specialist role in Melbourne. My background combines enterprise Intune, Windows Autopilot, Entra ID, Microsoft 365, endpoint lifecycle management, and PowerShell automation across large Australian environments, including a 660,000+ user SharePoint estate and clinical Windows 11 deployment work.

I'm an Australian citizen with unrestricted work rights and can contribute across endpoint engineering, identity, operational escalation, and automation. My resume is attached for consideration.

Regards

Sam Ludwig

Microsoft - Data Center Technician / Critical Environment Technician

Subject: Melbourne Data Center Technician - Sam Ludwig

Hi Microsoft recruitment team

I'm interested in the Melbourne Data Center Technician and Critical Environment Technician opportunities. My experience spans enterprise infrastructure, hardware provisioning, Layer 1 telecommunications, Windows endpoint deployment, data-centre environmental controls, fault-finding, and operational documentation. I'm also Microsoft-certified in Azure administration and bring a strong safety, troubleshooting, and root-cause mindset.

I'm an Australian citizen with unrestricted work rights and am open to the operational requirements of critical infrastructure work. My resume is attached for consideration.

Regards

Sam Ludwig

AWS - Data Center / Infrastructure Delivery Technician

Subject: Melbourne Infrastructure Operations Technician - Sam Ludwig

Hi AWS recruitment team

I'm interested in the Melbourne Infrastructure Operations Technician opportunities. I bring hands-on Layer 1 telecommunications and physical infrastructure experience, enterprise Windows and Microsoft cloud operations, hardware provisioning, fault-finding, incident ownership, and PowerShell automation. I'm comfortable working with technical stakeholders, documenting operational procedures, and supporting environments where availability and safety are non-negotiable.

I'm an Australian citizen with unrestricted work rights and am open to shift-based and site-based operational work. My resume is attached for consideration.

Regards

Sam Ludwig
