Subject

Application - Support Technician - Sam Ludwig

Email body

Hello Hiring Manager

I'm writing about the Support Technician position with cardioscan. The cardioscan role is a strong local fit for my recent endpoint and service-desk work. The Camberwell location and one-day work-from-home arrangement also make it practical from St Kilda.

My background includes enterprise technical support, endpoint lifecycle management, field infrastructure, systematic fault-finding, customer communication and process-focused documentation.

The areas most relevant to the role are Intune, windows, ServiceNow.

I'd welcome a brief conversation about the role and any position-specific requirements.

Regards

Sam Ludwig
