Hello Hiring Manager

I'm writing about the Brushcutting Team Member position with Green by Nature / City of Greater Dandenong contract. My earlier field and HVAC roles provide a base for practical outdoor work, equipment handling and following repeatable maintenance procedures. I don't hold brushcutter or horticulture qualifications.

My background includes enterprise technical support, endpoint lifecycle management, field infrastructure, systematic fault-finding, customer communication and process-focused documentation.

The areas most relevant to the role are hvac.

I'd welcome a brief conversation about the role and any position-specific requirements.

Regards

Sam Ludwig
