Hello Hiring Manager

I'm writing about the Cook / Chef / Kitchen Staff position with Hello Harry. I'm making a deliberate move into local practical work. I haven't worked in a commercial kitchen, but I'm used to reliable procedures, service operations, learning new systems and taking responsibility for the work in front of me.

My background includes enterprise technical support, endpoint lifecycle management, field infrastructure, systematic fault-finding, customer communication and process-focused documentation.

The areas most relevant to the role are healthcare technology, customer support.

I'd welcome a brief conversation about the role and any position-specific requirements.

Regards

Sam Ludwig
