Email body

Hello Hiring Manager

I'm writing about the Desktop Support Technician position with MedHealth. I bring practical desktop support across endpoint provisioning, break-fix, Windows 10/11 migration, inventory, standard operating environments, Intune policy validation, and user handover.

My background includes enterprise technical support, infrastructure and endpoint delivery, systematic fault-finding, customer communication, process-focused documentation, and automation.

The areas most relevant to the role are desktop support, windows, hardware support.

I'd welcome a brief conversation about the role and any position-specific requirements.

Regards

Sam Ludwig
