Hello Hiring Manager

I'm writing about the ICT Technician Level 2 position with Westbourne Grammar School. This role strongly aligns with my hands-on endpoint support, device provisioning, Windows migration, Microsoft 365 administration, user communication, and experience supporting the Victorian education environment.

My background includes enterprise technical support, infrastructure and endpoint delivery, systematic fault-finding, customer communication, process-focused documentation, and automation.

The areas most relevant to the role are level 2 support, ict support, windows.

I'd welcome a brief conversation about the role and any position-specific requirements.
