Email body

Hello Hiring Manager

I am writing about the IT Support Technician position with Microcel. This Fairfield school-ICT support role matches practical endpoint troubleshooting, hardware handling, site-based customer support, and structured service delivery. The subcontractor arrangement and travel requirements need confirmation.

My background includes Intune, Autopilot, customer support, infrastructure, enterprise technical support, endpoint lifecycle management, field infrastructure, systematic fault-finding, and process-focused documentation.

I would welcome a brief conversation about the role and any position-specific requirements.

Regards

Sam Ludwig
