Hello Hiring Manager

I am writing about the Service Desk Analyst - Level 2 position with Wallbridge Gilbert Aztec. This Level 2 Melbourne service-desk role matches my recent endpoint support work and my broader Tier-3 Microsoft environment experience. Remote work availability is attractive, subject to confirming the roster and support model.

My background includes ServiceNow, itil, customer support, project delivery, enterprise technical support, endpoint lifecycle management, field infrastructure, systematic fault-finding, and process-focused documentation.

I would welcome a brief conversation about the role and any position-specific requirements.

Regards

Sam Ludwig
