Subject

Application - Data Center IT Support Engineer, Data Centre Operations - Sam Ludwig

Email body

Hello Hiring Manager

I am writing about the Data Center IT Support Engineer, Data Centre Operations position with Amazon.com. This data-centre operations role is an adjacent but credible match. I bring hands-on hardware and endpoint support, physical infrastructure, structured cabling, systematic fault-finding, and reliable operational discipline. The server and networking depth needs confirmation.

My background includes data centre operations, server support, networking, hardware diagnostics, enterprise technical support, systematic fault-finding, process-focused documentation, and customer communication.

I would welcome a brief conversation about the role and any position-specific requirements.

Regards

Sam Ludwig
